About

"Willing to learn, willing to change for the better".

I love create polished and meaningful user experiences. Always try to complete the assigned tasks excellently, exploiting all the abilities and strengths into the contributions of the department and the company. From there, bringing better quality products.

I spent a year self-taught and learned website programming at Cybersoft Academy to find opportunities and challenges in my career, and orientation to become Front-End Developers. Having a solid knowledge JS, REACTJS, TYPESCRIPT and other skills that i improve and practise every days. So, hope I will have the opportunity to join your dynamic and potential working environment.
Thanks for reading my CV.
